Project 2

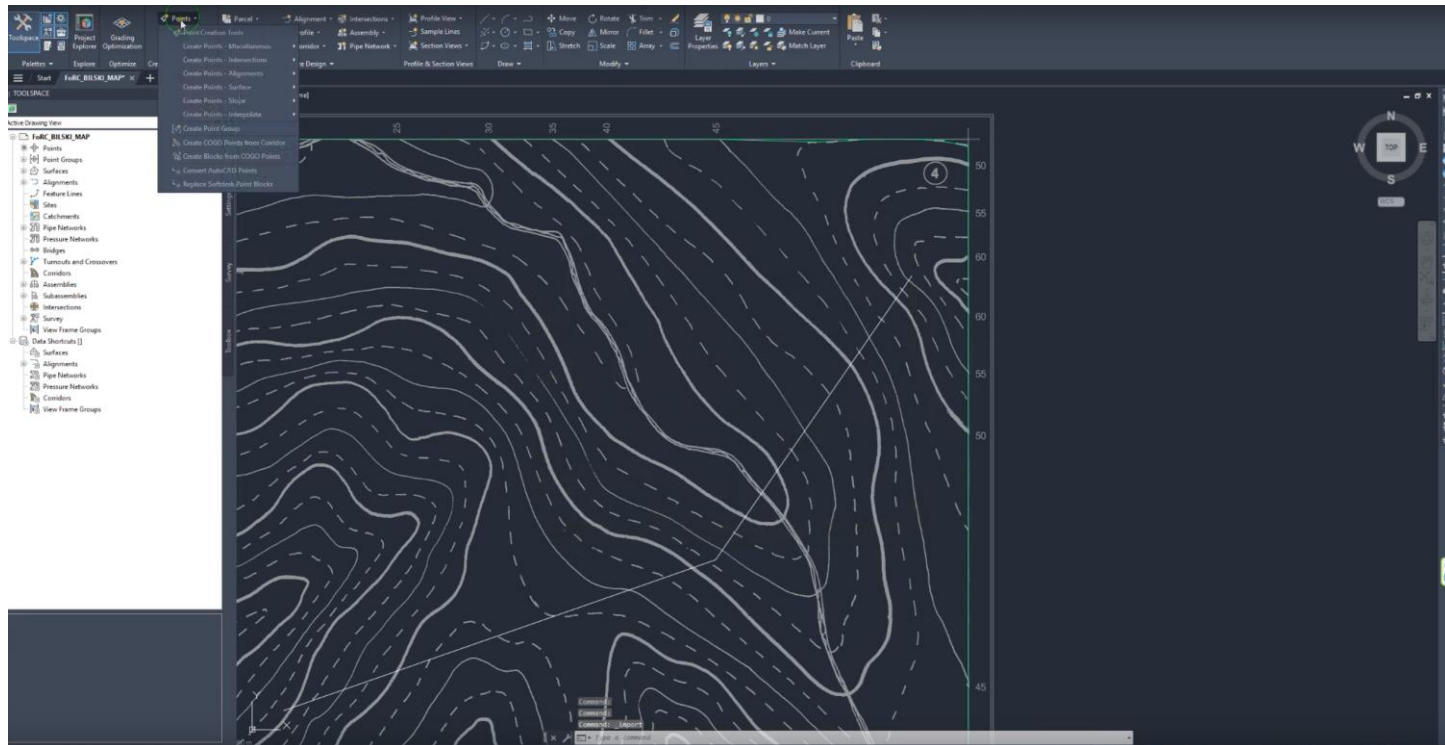

The subject of the project lecture:

**Horizontal alignment
(without horizontal curves)**

What to do:

1. Connect the start and end points with a line containing a single horizontal curve
2. In the project the straight section between the points should not exceed 1000 m after inserting the horizontal curve
3. In the project the route deflection angle should be within the range of 20 to 90 degrees

How to do:
